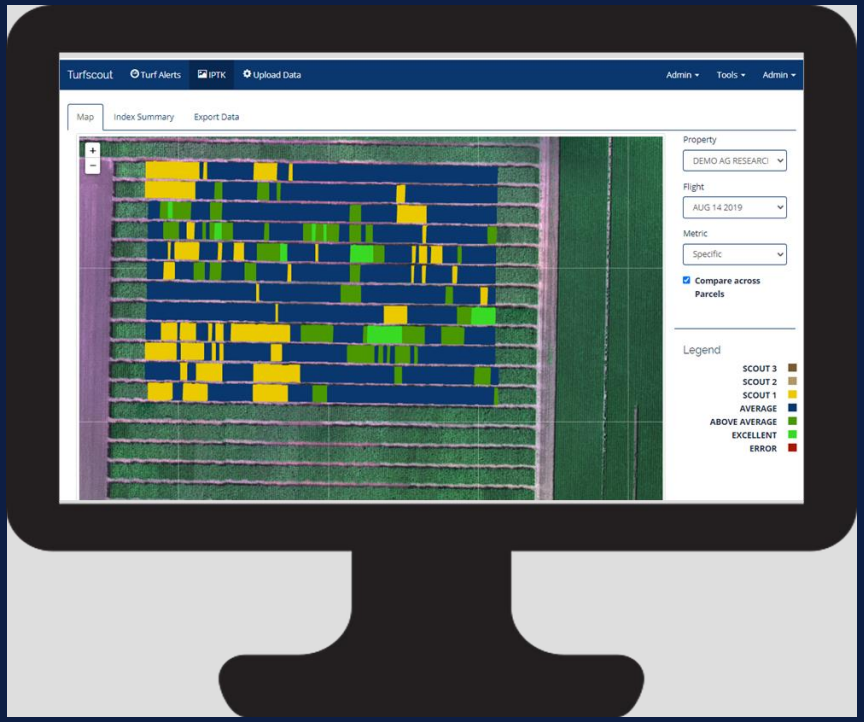
AgSpect
POWERED BY: TURF SCOUT
Providing Data Driven Solutions For Precision Plant Analysis

Enabling You To Do More With Your Imagery!

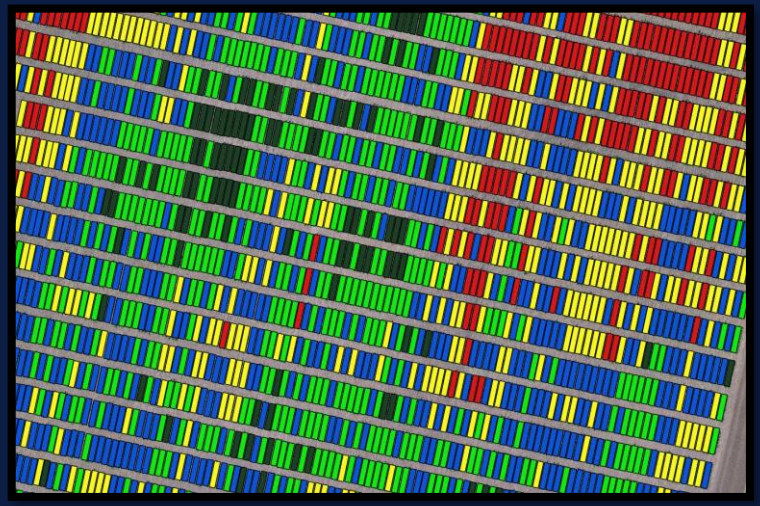
- Easy To Use Online System
- Use Your Current Computer
- Smart Visualization Tools
- On-Demand Decisions
- Risk Assessment Tool



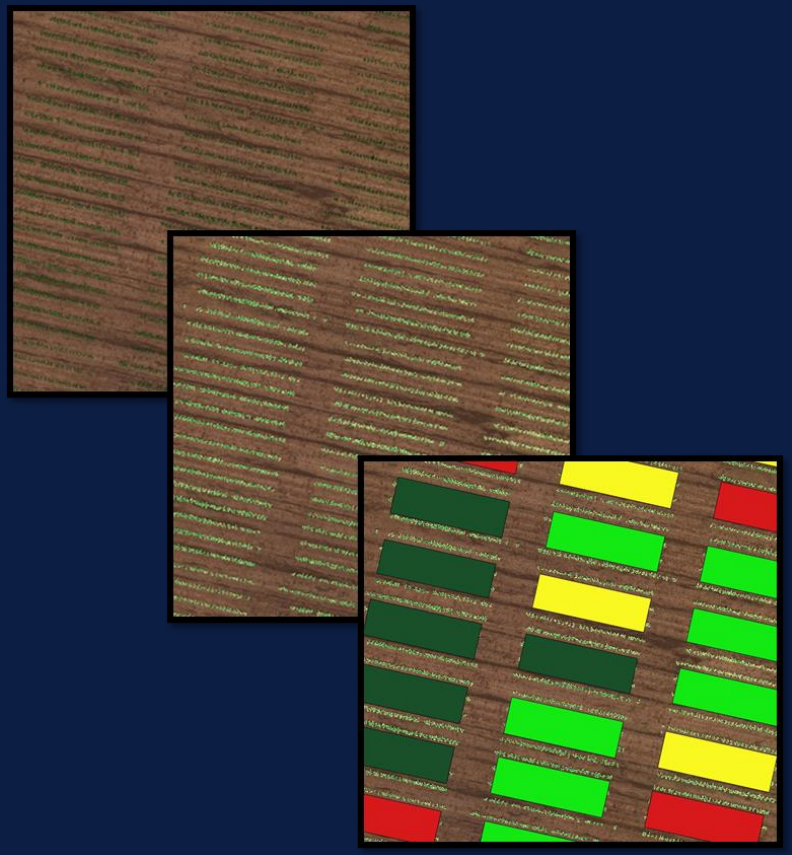
AgSpect

POWERED BY: TURF SCOUT

- Visualize Your Plots From The Sky
- See What You May Be Missing
- Use Your Own Drone Or A Consultant's
- Upload Imagery To Our Secure Website
- We Take It From There
- Harness The Power Of Data & Map Sharing



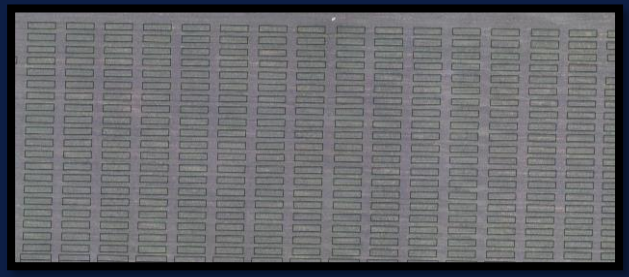
Drone Imagery Can Show You:

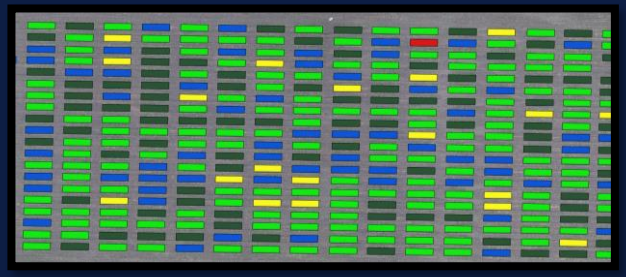


- Early Season Vigor
- Canopy Closure
- Senescence
- Stand Count
- Plant Height
- Tassel Counts *(Investigating)*
- Corn Ear Heights (*Investigating)*
- Crop Quality Assessment
- Pest Pressure
- Water Stress
- Chlorophyll Content
- Weed Pressure *(Investigating)*

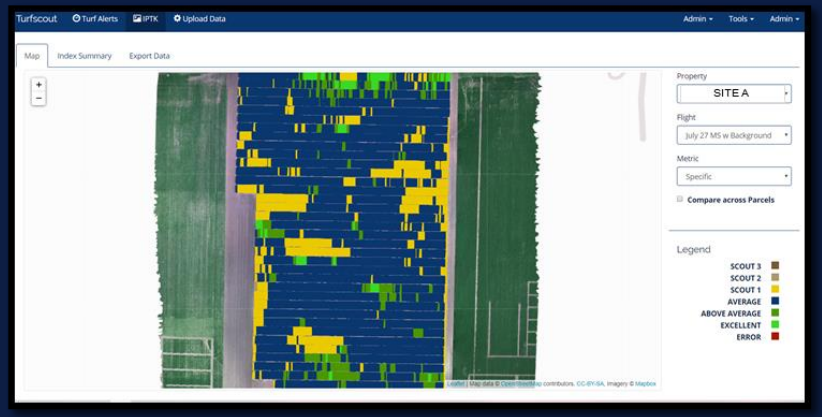
Use This Imagery In Your Research Program:

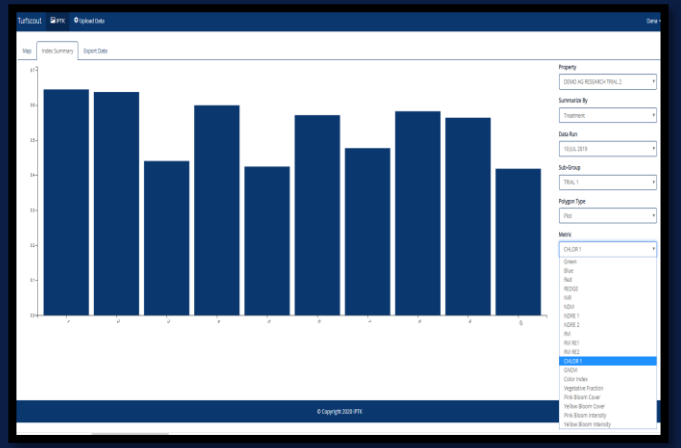
- Visualize Emergence And Seedling Vigor
- Replant Areas With Low Emergence
- Collect Unbiased Assessments Of Crop Quality Early And Often
- Standardize Measurements Of Plant Height
- Monitor Canopy Closure And Senescence
- Measure Flowering Amount And Intensity





We Help Interpret Your Imagery & Provide You With A Decision Support Tool.



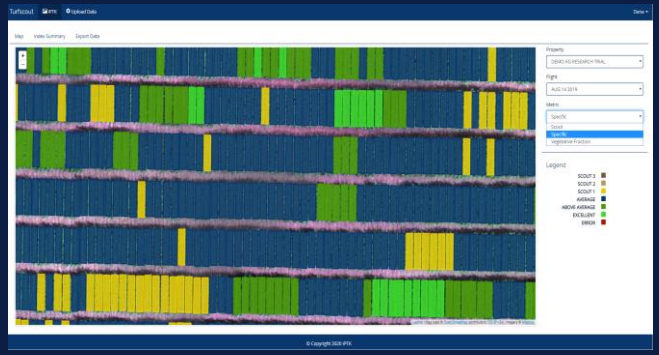


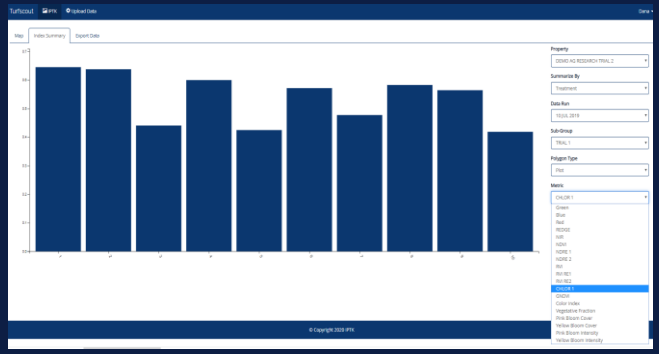
- Small Plot Assessments
- Georeferenced Imagery
- Research Grade
- Fully Exportable
- Intuitive Dashboard

- Data Visualization
- Data Exploration
- Plot & Treatment Summaries
- Data Hub

We Manage Data So You Don't Have To

- Smart Legends & Visualization Tools
- Custom Plot Digitization
- Geo-Registration
- Robust Calibration/Data Integrity
- Plot And Treatment Level Statistics
- On-Demand Comparisons
- Data Export Simplicity
- Data Hub For All Plant Assessments – *In Development*
- Custom Data Summary and Report Generation at the Dashboard – *In Development*





Optimize Your Research Program & Maximize Your Return

LINE ITEM (2017 Golf Industry Estimates)	SAVINGS
Stand Counts	$3000
Plant Height	$3000
Visual Ratings	$1500
Data Quality – Reduced Bias	Intangible
Data Quality - More Frequent Assessments	Intangible
Reaction Time	Intangible
Data Preparation/Reports	$3000
GRAND TOTAL	$10,500

Reduce Labor Intensive Field Operations
Increase Revenue/Add New Clients
Reduce Field Loss
Standardized Data Management
Streamline & Easy Reporting

$5,000 TurfScout Service
$0 Owned Drone
$2,500 Consultant Drone
$7,500 or less Estimated Cost

POTENTIAL GAIN > $3, 000

What Sets Us Apart From The Rest?

- Intuitive Map Interface
- Data Driven Map Legends
- High Quality Data Processing
- Extra – Ordinary Image Quality
- High Resolution Georeferencing On All Images
- No Minimum PC Requirements – Entirely Cloud Based
- We Clean Your Data For Free
- We Support A Wide Range Of Camera Types
- Set Fees - No Hidden Charges

No One Is More Committed To Your Success!
